RECOMMENDED USE

General industrial and occupational environments requiring category SB safety footwear with steel toe protection. Typical applications include warehousing, logistics, factory floors, light construction, retail workwear and general site work.

IMPORTANT LIMITATIONS

No claim is made here for chemical resistance, oil/fuel resistance, waterproofing, heat resistance or electrical-hazard protection. Do not advertise an unlisted safety claim without a separate current written certificate. For tenders, regulatory reviews or legal submissions, attach the full Letter of Authority and supporting test reports where required.
